Due to the increasing number of cases in Los Angeles County, including more community transmission and recent guidance issued by the California Department of Public Health as it relates to COVID-19 and public gatherings, community events at Farmer’s Markets must be cancelled or postponed until after April 30, 2020 and will not be issued a health permit to operate. Community events that were previously approved and permitted will be notified that their permit is suspended and will be issued the option of rescheduling the event or requesting a refund for the fees paid.

In light of the need to ensure that fresh food is available to residents, outdoor Certified Farmer’s Markets that are certified by the State of California and have obtained a health permit for a Certified Farmer’s Market will be allowed to operate if the conditions noted below are implemented.

**Certified Farmer’s Markets modified operational conditions:**

- Limit the sale of food to whole uncut produce and packaged food items. No food preparation food booths will be allowed to operate.
- No sampling of unpackaged food is permitted.
- Post signs reminding customers of the following:
  - Wash all produce before consumption
  - Handwashing Reminder
  - Asking customers to remain home if they are sick, even with mild illness.
- Market managers are responsible for ensuring that crowds are staggered to provide for social distancing of customers.
  - Allow for space between produce stands
- Provide handwashing stations for customers where possible. Recommend providing alcohol-based hand sanitizer with at least 60% alcohol for customers to use prior to handling produce.
- Ensure handwashing stations are provided adjacent to restroom facilities and stocked with soap and paper towels at all times.

**Certified Farmer’s Market Employees**

- Sick employees are advised to stay home and not return to work until they are free of fever for at least 72 hours without fever-reducing medication.
- Employees who appear to be ill upon arrival to work or become sick during the day should be sent home immediately.

**Handwashing Instructions for All Market Employees**

- Wash hands and arms with soap and warm water for at least 20 seconds before:
  - Eating or drinking
  - Putting on gloves
- Wash hands after these activities:
  - Using the restroom
  - Touching your hair, face, body, or clothes
Farmer’s Markets and Community Events

- Sneezing, coughing, or using a tissue
- Smoking, eating, drinking, or chewing gum
- Emptying or taking out the garbage
- Handling money and making change
- Removing gloves
- After engaging in other activities that might contaminate the hands

- Recommend assigning an employee at every shift to ensure that handwashing sinks are stocked with soap and paper towels at all times.
- Recommend using gloves appropriately as an additional tool, but it is important to remember that gloves do not replace the need to wash hands and practice good hand hygiene.

General Cleaning
- Clean and disinfect all “high-touch” surfaces such as tabletops, cash register counters, restroom fixtures and handwashing sinks, and trash cans frequently.
- Use an Environmental Protection Agency (EPA)-registered product that cleans (removes germs) and disinfects (kills germs). Always follow the instructions on the labels of cleaning products and disinfectants.

Effective Disinfectants
- To make a bleach solution, mix 1 tablespoon of bleach to 1 quart (4 cups) of water. For a larger supply, add ¼ cup of bleach to 1 gallon (16 cups) of water. Use the solution within 20 minutes. Use test strips to test chlorine solution (100 ppm).
- Other EPA-approved disinfectants may be used if they are effective against Coronaviruses. Consumer may contact the “1-800” number on product label for its effectiveness against “COVID-19”.

Proper Handling of Disinfectants, Items and Waste
- Use chemicals in a well-ventilated area.
- Avoid mixing incompatible chemicals (read label).
- Prevent chemical contact with food during cleaning.
- Manage waste safely and dispose in a secure trash container.

*Market Managers are responsible for ensuring compliance with the above conditions.*
